The Group recognises the value of a diverse and skilled workforce and is committed to creating and maintaining an inclusive and collaborative workplace culture for the organisation into the future. The Group intends to utilise diversity of backgrounds, experiences and perspectives within the workforce to uphold a strong level of customer service to an equally diverse community.

Corporate Governance Statement

Director, Board and Committee Evaluation

The Board Charter requires that each Director participate in an annual performance evaluation that is reviewed by the Chair. The evaluations include areas such as role of the Board, composition, meeting conduct, behaviours and competencies, governance and risk, ethics and stakeholder relations.

Ardent Leisure has recently conducted a Board performance evaluation that involved one-on-one interviews with each of the Directors and the Company Secretary. Conducted by an independent third party, the review considers the functionality of the Board and its Committees, with the objective of establishing an action plan to improve the cohesion and direction of the Board, as well as informing its ongoing succession planning.

Additionally, each Committee is required to undertake an annual self-assessment by the Committee of its performance and charter. These evaluations are conducted against the existing charter and prevailing developments in the corporate governance arena.

Key Management Personnel Performance Evaluation

In accordance with the Board Charter, the Directors evaluate the performance of KMP on an annual basis. The purpose of the evaluation of KMP is to provide the following key benefits:

- Assist the Board in meeting its duty to stakeholders in effectively leading the Group;
- Ensure the continued development of KMP to more effectively conduct their role;
- Ensures a formal and documented evaluation process; and
- Leaves a record of the Board's impression of the performance of KMP.

The process adopted by the Board to assess the performance of KMP is as follows:

- Key Performance Indicators (KPIs) are agreed at the commencement of each financial year;
- At the end of each financial year, or otherwise as required, each Board member is requested to provide feedback to the Chair on performance against KPIs;
- Feedback is provided on KMP to the Remuneration & Nomination Committee; and
- Following this feedback, recommendations to the Board are made by the Remuneration & Nomination Committee on the assessment of the performance of KMP, providing feedback on any areas that need to be addressed with each individual.

The Main Event and Dreamworld Committees also play an integral role in evaluating the performance of KMP of the respective business divisions.

Dreamworld Committee

The Dreamworld Committee was established to ensure the Board fulfils its responsibilities to oversee the management and performance of Dreamworld. The Committee consists of Directors and external members. The Chairperson is a Non-Executive Director appointed by the Board.

External members with the requisite skills, knowledge and experience are appointed as the Committee considers fit and appropriate to assist the Committee achieve its objectives.

Corporate Governance Statement

Board Composition

The Directors of the Group have set out in the Board Charter the required composition of the Board subject to any requirements under the constitutions of the Company and the Manager:

- Independent Directors should comprise a majority of the Board;
- Directors appointed to the Board should provide an appropriate range of qualifications and expertise; and
- In the event that the Chair ceases to be deemed independent then a lead independent Director should be appointed by the Board.

To appropriately reflect the geographic presence and earnings of the Group, the Board includes two Directors based in the United States.

The Chair of the Board does not occupy a joint position as Chief Executive Officer.

Principle 2 – Structure the board to add value

Nomination Committee

The Directors have established a combined Remuneration & Nomination Committee due to the relatively infrequent need to call upon the services of the previous Nomination Committee. The charter for the combined Remuneration & Nomination Committee remains broadly similar and includes the review process for the Board and its committees and also the time commitment for Non-Executive Directors.

The combined Remuneration & Nomination Committee consists of a minimum of three members, with the majority of members required to be independent directors. The Remuneration & Nomination Committee is specifically responsible for making recommendations to the Board in relation to:

- The identification, assessment and enhancement of the competencies of Board members;
- Board and management succession plans, including the appointment of suitably qualified candidates to the Board and the appointment of KMP;
- The development and implementation of a process for evaluating the performance of the Board, Board Committees and individual Directors; and
- The assessment of the time required to fulfil the obligations of a Non-Executive Director and whether Directors are able to meet these expectations.

In order to assist Directors, each Director may participate in internal training sessions and conferences organised from time to time in respect of relevant industry and regulatory issues and may attend asset tours that are arranged from time to time.

Additional training requirements may be arranged by the Company Secretary with the Chair's approval.

Board Skills and Competencies

The Board reviews its core competencies that should be present across the Board of Directors. Board members should have a working knowledge of finance and accounting, corporate regulation and business strategic theory. The Board aims to gather a breadth of complementary skills and experience on the Board.

The Directors believe that diversity is critical to the effective functioning of the Board. To this end, the Board strives to ensure that Directors should not all be from one occupational group or even from the same industrial sector the Group operates in.

The Board has undertaken a review of the key skills and competencies of the Board to ensure appropriate oversight of the Group's current operations and strategy for future growth.

Corporate Governance Statement

It is the intention of the current Board to ensure an appropriately balanced Board composition between US-based Non-Executive Directors and Australian-based Non-Executive Directors.

Corporate Governance Statement

Director Independence

The Board recognises that independent directors are important in assuring investors that the Board is properly fulfilling its role and is diligent in holding management accountable for its performance.

In determining the independence of Non-Executive Directors, the Board is guided by the ASX Corporate Governance Principles and Recommendations. The independence of the Directors is assessed annually, taking into account matters such as tenure, contractual interests, significant security holdings, relationships with key advisers, suppliers and customers and any prior executive employment within the Group. Materiality is assessed on a case-by-case basis to ensure any potential conflicts of interest do not interfere with a Director's ability to provide independent judgement and to act in the best interests of the Group and securityholders.

As at 30 June 2018, Directors deemed to be independent were: Mr David Haslingden, Mr Don Morris AO, Mr Randy Garfield, Mr Brad Richmond and Ms Toni Korsanos. Additionally, due to the substantial holdings of Group securities by Dr Gary Weiss and his associates, the Board has appointed Mr Haslingden as Lead Independent Director effective 1 July 2018. The Lead Independent Director will assume the role of Chair of the Board when Dr Weiss has a potential conflict of interest or lack of independence. This position also offers an alternative point of contact for securityholders.

Details of the tenure, current position and previous offices held by each Director which are relevant to the assessment of their independence are disclosed in their respective profiles, along with their interests in securities, and set out in the Annual Financial Report for the year ended 26 June 2018.

Principle 3 – Promote ethical and responsible decision-making

Culture

The Group strongly believes in maintaining and instilling a strong culture throughout the organisation. Employees are always required to act responsibly and ethically. The Group has a Whistleblowing Policy which clearly outlines how the Group handles disclosures of known or suspected misconduct and how it will protect those individuals who have reported such misconduct.

Protected Disclosures

Disclosure of information by an employee is protected under the Group's Whistleblowing Policy if the employee has reasonable grounds to suspect that the information concerns or indicates misconduct in relation to a Group entity, and if the disclosure is made in accordance with the policy.

Making a Disclosure

Under the Whistle-Blowing Policy, disclosures are made to the Protected Disclosure Officer. This can be done in person, by email or via the Group's third party independent ethics hotline. Disclosures can be made either inside or outside normal working hours and locations.

Group employees are encouraged to report known or suspected incidences of misconduct in accordance with the Whistleblowing Policy. All employees must abstain from any activity that is, or could be perceived to be, victimisation or harassment of persons who make disclosures. The confidentiality of persons they know or suspect to have made disclosures should be maintained.

The Protected Disclosure Officer is responsible for receiving, forwarding and acting upon disclosures and must take all necessary and reasonable steps to ensure that the identities of persons who make disclosures,

Corporate Governance Statement

and the subjects of disclosures, are kept confidential. The Protected Disclosure Officer is also responsible for supporting persons who make disclosures and protecting them from victimisation, harassment or any other form of reprisal.

The Group operates a Fraud Policy designed to prevent, deter, detect and investigate all forms of fraud. For the purposes of the Fraud Policy, "fraud" is defined as the intentional distortion of financial statements or other records by persons internal or external to the organisation which is carried out to conceal the misappropriation of assets or otherwise for gain.

The Group has adopted a "zero tolerance" towards fraud and requires that all reported incidents, including internal fraud, will be thoroughly investigated with utmost confidentiality. Necessary action will be taken against any individual or group who have committed fraud and may involve disciplinary action resulting in dismissal from employment, and civil and/or criminal legal proceedings. Critical business procedures and controls are directed to maintain an effective fraud control environment to assist in fraud prevention and detection.

Any employee who suspects a fraudulent activity must notify the business Chief Executive or alternatively, email details to a private email address set up exclusively for this purpose.

All employees are required to acknowledge that they understand and will comply with the Employee Ethical & Confidentiality Policy.

All documents or written material provided to the employee or used in connection with the Group's business is the property of the Group and must not be removed, passed on, copied or disclosed to third parties except with the Group's authority.

Conflicts of Interest

Directors should not have any business or other relationship that could materially influence or interfere with the exercise of their independent judgement apart from those declared to the Board under the Corporations Act 2001, ASX Listing Rules and other general law requirements.

Directors with a material personal interest in a matter must not be present at a Board meeting during the consideration of the matter and subsequent vote unless the Board (excluding the relevant Board member) resolves otherwise. Directors with a conflict not involving a material personal interest may be required to absent themselves from the relevant deliberations of the Board.

Personal Gain

Employees must not misuse their position with the Group or any information received in the course of their employment to produce a personal benefit for themselves, their family, friends or any other person, or to cause a detriment to the Group. In the event of any conflict of interest this must be disclosed to the Group.

Employees are prohibited from soliciting or accepting any gift or benefit which induces or influences the Group to enter a transaction, business opportunity or business dealing, or which might reasonably be perceived as such an inducement or influence.

Ethical Business Practices

All employees and Group suppliers must adopt the following standards:

- Suppliers should adhere to applicable laws and regulations that govern them.
- Employment should be freely chosen; there should be no forced, bonded or involuntary prison labour, employees should not be required to lodge 'deposits' or identity papers with their employer and should be free to leave their employer after reasonable notice.
- Employees should have freedom of association and the right to collective bargaining within the framework of applicable laws.
- Working conditions should be safe and healthy; applicable Occupational, Health & Safety laws & regulations must be complied with.
- Child labour should be eliminated and suppliers should conform to provisions of International Labour Organisation Convention 138 and be consistent with United Nations Convention on Rights of the Child.
- Wages should be paid according to applicable standards and regulations. Wages must not be paid in kind and employees should be provided with written and understandable information about their employment conditions.
- Working hours should not be excessive and should comply with national laws and national benchmark industry standards.
- Discrimination based on race, caste, national origin, religion, age, disability, gender, marital status, sexual orientation, union membership or political affiliation is prohibited.
- Regular employment should be provided and work performed must be on the basis of recognised employment relationship established through national law and practice.
- Harsh or inhumane treatment of employees is prohibited.

Corporate Governance Statement

The Group seeks to collaborate with suppliers in pursuit of these standards and attempts to guide relationships by the principle of continuous improvement. Similar ethical trading standards will be considered acceptable as a reasonable alternative where suppliers are already working towards this initiative.

The Group promotes a risk based approach to implement these standards by focusing attention on those parts of the supply chain where risk of not meeting these standards is highest. Suppliers are advised that implementation of these standards may be assessed by the Group or through independent verification.

Suppliers are required to use reasonable endeavours to provide workers covered by these standards with a confidential means to report to the suppliers' failure to observe these standards. It is expected that all suppliers will comply with the standards and the Group reserves the right not to do business with suppliers where it can be demonstrated that significant violations exists. In particular, the Group and/or its separate businesses will not bring suppliers onto its supplier list if there is evidence of under-age workers, forced, bonded or involuntary prison labour, or where the supplier's workers are found to be subjected to potential life threatening working conditions or harsh or inhumane treatment.

Securities Trading Policy

The purpose of the Securities Trading Policy is to regulate trading by all Directors and employees of the Group in any securities issued or nominated by the Group. This also applies to financial products issued or created over such securities (including but not limited to warrants, options and derivatives), entering into financing arrangements over financial products including establishment of a margin loan over such securities.

This Securities Trading Policy also applies to trading by Directors' and employees':

- Spouses;
- Children under the age of 18 years;
- Dependent children living in the family home;
- Trusts under which they or a member of their family are a trustee or beneficiary; and
- Companies which they or their family control.

General Prohibition (Insider Trading)

Directors and employees are at all times prohibited from trading in securities while in possession of unpublished price sensitive information. Price sensitive information is information which is not generally available and which a reasonable person would expect that if the information were disclosed it would have a material effect on the price of Group securities and it would therefore influence investors in deciding whether or not to buy, hold or sell securities issued by the Group.

This prohibition applies even during periods when trading windows are permitted under this policy if a person is in possession of price sensitive information. In addition to not being able to deal, the person in possession of the price sensitive information has an obligation to keep that information confidential and must not communicate it to another person unless it is information, which is required to be brought to the attention of the Company Secretary.

Specific Prohibition

All Directors and Nominated Employees are bound as a condition of their employment to comply with and observe the Securities Trading Policy.

Corporate Governance Statement

Black Out Periods

All Directors and Nominated Employees are prohibited from trading in Securities issued by the Group during the following timeframes:

- from 1 January until the first trading day after the announcement of the Group's half year results;
- from 1 July until the first trading day after the announcement of the Group's full year results; and
- any other period nominated from time to time as a black out period by the Group's Board.

Discretion is vested in the Company Secretary to allow exemptions to trading during blackout periods in special circumstances only, where no price sensitive information is on hand and application of the Policy would cause undue financial hardship.

No Short Term Trading

The Board encourages employees to invest in the Group and discourages short term trading. Under the terms of the Securities Trading Policy, Nominated Employees must not deal in securities for short term gain. Speculating in short term fluctuations in such securities does not promote investor and market confidence in the integrity of the Group. Accordingly, trading in securities issued by Group entities within 6 months of an acquisition is prohibited. The Group may in its discretion vary this rule in relation to a particular period by general announcement.

The Securities Trading Policy does not prevent Directors and employees from passive trading such as participating in a share plan or public offer made by the Group, provided that at the time the individual elects to participate, he or she is not in possession of any price sensitive information. Further, the individual may not subsequently vary that election until such time as they are again not in possession of such information.

The Securities Trading Policy also prohibits any hedging of unvested security based incentives by Directors and Nominated Employees.

Directors or Nominated Employees wishing to trade in securities must request prior approval to trade. Details in relation to the approval process is outlined in the Securities Trading Policy available on the Group's website.

In order to regulate the continuous disclosure regime across the Group in relation to any securities issued by the Group, the Board has adopted a Continuous Disclosure Policy.

The Continuous Disclosure Policy aims to ensure that the Group complies with the continuous disclosure requirements contained in the Corporations Act 2001 (the Act) and the Australian Stock Exchange (ASX) Listing Rules (the Rules). The successful operation of the Group's continuous disclosure regime promotes investor confidence by providing full and timely information to the market about the activities of the Group and serves to educate all relevant Group personnel on what continuous disclosure is, and how they can ensure they meet their individual responsibilities.

Commitment to Continuous Disclosure

Subject to the exceptions contained in the Listing Rules, the Group will immediately notify the market of any information or matter related to the businesses or financial condition of the Group which a reasonable person would expect to have a material effect on the price or value of those securities. Such notifications will be made by way of an announcement to the ASX.

Reporting of Disclosable Information

Directors and employees must ensure that any information which may require disclosure is reported to the Company Secretary or his/her nominee as soon as it is known. The Company Secretary will then determine whether any item of information is to be disclosed to ASX. Where the Company Secretary decides that information reported does not warrant an ASX release and the Director or employee who reported the information disagrees with that decision, they may choose to refer the matter to the Chairman.

ASX Announcement Approval

If the Company Secretary determines that an item of information is to be disclosed to the ASX then the draft of the ASX announcement must be approved either verbally or in writing, by the Chairman prior to release. ASX announcements deemed to contain price sensitive information must be circulated to the Board of Directors for comment and approval prior to release.

Release of Information

Price sensitive information must not be released externally until it has first been lodged with the ASX and the ASX has acknowledged that the information has been released to the market. That is, selective disclosure of such information cannot be made to brokers, analysts, the media, professional bodies or any other person until the information has been given to (and released by) the ASX. This includes information that is subject to embargo as the ASX does not accept embargoed information.

In the event that at an analyst or media briefing an inadvertent disclosure is made which is price sensitive then that information must be immediately made available to the market through the ASX.

Analyst and Media Briefings

All material to be presented at an analyst briefing must be referred through the Company Secretary prior to the briefing.

Corporate Governance Statement

Trading Halts

The Company Secretary may, with the approval of the Chairman, or failing whom, any other Non-Executive Director, or failing whom any two Non-Executive Directors, request the ASX to halt trading in the securities.

Training and Development

The Continuous Disclosure Policy requires that relevant employees undergo training with respect to disclosure requirements.

Board Procedures

The Board of Directors must consider and minute at each full Board meeting whether there are any matters requiring disclosure. If no matters require disclosure this must also be explicitly included in the minutes.

Media Releases

Releases, interviews and other communications to the media may be undertaken so long as they do not contain or refer to price sensitive transactions and do not fall within the Group's materiality thresholds. Any discussions or presentation to third parties should only be undertaken post release to the ASX of the subject matter if they include material information.

Website

All releases whether material or not are required to be posted to the Group website for access by investors and other interested parties.

Principle 6 – Respect the rights of shareholders

Corporate Governance

The Group's website at www.ardentleisure.com has a corporate governance section on its website from where all relevant corporate governance information can be accessed, including the details on the Board of Directors, Management Team, the Company and Trust Constitutions, Board and Committee Charters and various corporate governance policies.

Investor Communications

The Group has adopted a specific Investor Communications Policy for investors and believes that a flexible approach to investor communications and early adoption of emerging technology is the most effective manner of increasing investor participation in the business of the Group.

Throughout the year, the Group follows a calendar of regular disclosures to the market on its financial and operational results. An indicative calendar of events is made available to investors on the Group's website.

In accordance with the Group's Continuous Disclosure Policy, the Group must ensure it does not communicate inside information to an external party except where that information has previously been disclosed to the market generally.

As soon as is practicable, all Group announcements are posted to the Group's website. Other information of relevance to investors is also made available on our website, including, annual and half yearly financial reports, key dates, distribution history, cost base allocations, management fee breakdowns and the management investment trust notices.

Corporate Governance Statement

The website also contains a link to the Group's security Registry and a live feed from the ASX for the Group's security price information.

Investors Reports

The Group prepares Annual Reports for investors for each half and full financial year. These reports are posted on the website on their day of release to the ASX. Investors may elect to receive a hard-copy of these reports or an email notification once they become available on the website. The default option for receiving the Annual Report is via the Group's website at www.ardentleisure.com.

General Meetings

The Group holds an annual general meeting (AGM) in October or November each year. The date, time and venue of the AGM are notified to the ASX when the Annual Report is lodged with the ASX, generally in September each year. The Board of Directors aims to choose a date, venue and time considered convenient to the greatest number of our investors.

All notices of meetings will be accompanied by clear explanatory notes on the items of business. A copy of any such Notice of Meeting will be placed on the Group's website. Should an investor not be able to attend a general meeting they are able to vote on the resolutions by appointing a proxy. The proxy form included with the notice of meeting will clearly explain how the proxy form is to be completed and submitted.

As previously stated, the external auditor attends each AGM to answer questions about the conduct of the audit and the preparation and contents of the Auditors Report.

Investor Benefit Program

Investors with 2,000 or more securities are entitled to participate in an Investor Benefits Program. The program aims to provide qualifying investors with an opportunity to experience some of the assets owned by the Group at discounted rates.

Corporate Governance Statement

Key Business Risk	Risk Categories
Environmental & Safety Management	Contamination, Media/Publicity, Employee Safety, Guest & Contractor Safety.

Risk Assessment Methodology

The risk assessment methodology adopted for these reviews includes a three step process. Firstly, the inherent risk for each risk category is determined by evaluating likelihood & consequence of the risk based on the current and existing processes. Risks are evaluated and ultimately allocated to one of four distinct categories of Extreme, High, and Moderate and Low. Next the effectiveness of existing risk controls is reviewed and a ranking determined on a scale of Good, Fair or Poor. Finally, after the controls have been assessed the residual risk factors are derived into three categories of High, Medium and Low by merging the inherent risk rating and the effectiveness of the controls rating.

Internal Audit

The Group has an Internal Audit function which is responsible for assisting with the accomplishment of the Group's objectives by bringing a systematic, disciplined approach to evaluating and continually improving the effectiveness of its risk management and internal control processes. The Group Chief Audit Officer has a direct reporting line to the Board via the Audit & Risk Committee.

Further details of the Group's remuneration policies are set out in the Directors' Report contained in the Annual Financial Report for the year ended 26 June 2018.

The Board has adopted a specific clawback clause to be included in grant letters for deferred equity whereby any unvested Performance Rights shall be subject to potential lapse, cancellation, rescission or other action in the event that the Group becomes aware of any misstatement in its financial statements for any of the immediately preceding 3 financial years due to:

- (a) a material non-compliance with any financial reporting requirement;
- (b) the misconduct of any KMP; or
- (c) the misconduct of any of its other employees, contractors or advisers as a result of the direction (or lack of direction) by any member of the KMP.

Corporate Governance Statement

To the extent that the Performance Rights granted exceed the number, metrics or outcome that would have been applied had the misstatement not been made, then the Board retains its discretion to adjust LTI payments subject to outcomes.

In making recommendations to the Board in relation to KMP and Non-Executive Director remuneration, the Committee may source direct advice from external advisors in relation to market trends for KMP and Non-Executive Director remuneration.
